## AVS ETS (EcoTre System) Biomass Pelletising Plant (2008)

with 2 - 160kW motors, top feed hopper, 2 outfeed cyclones each with fan & rotary valve

**Brochure advises:**

- High density pellets 1350kg/m<sup>3</sup>, 770kg bulk
- pelleting of biomass with moisture up to 25%
- low energy consumption 60-90W/kg (whole line)
- low fines (0.5%)
- no additives used in pelleting
- presses with capacity 1 and 5 t/hour

**www.bioenergy-lamnet.org advises;** *"EcoTre Systems SRL is an Italian company which produces pelleting systems according to a patented innovative technology, compacting biomass from a suitable choice of agro and forestry residues. This technology is presently the ones which, on the worldwide market, can produce pellets at the lowest industrial cost. This system consumes the lowest amount of electric energy (i.e about half of the consumption of other existing technologies) at comparable rates."*

Currently dismantled. Cost £ 200,000 in 2018. Viewings and offers welcome

**Storage Location:** Preston, Lancashire
